# Total Vantage

Wilmer's Total Vantage program offers high quality security paper, adhering to the latest ANSI standards (Check 21 Compliant) for image readiness and security features.

## 3 Tiers of Security

### Tier 1 Laser Checks:

Our most economical option with 11 security features, multiple pantographs and color options on bright white paper. Ask about our promotional literature!

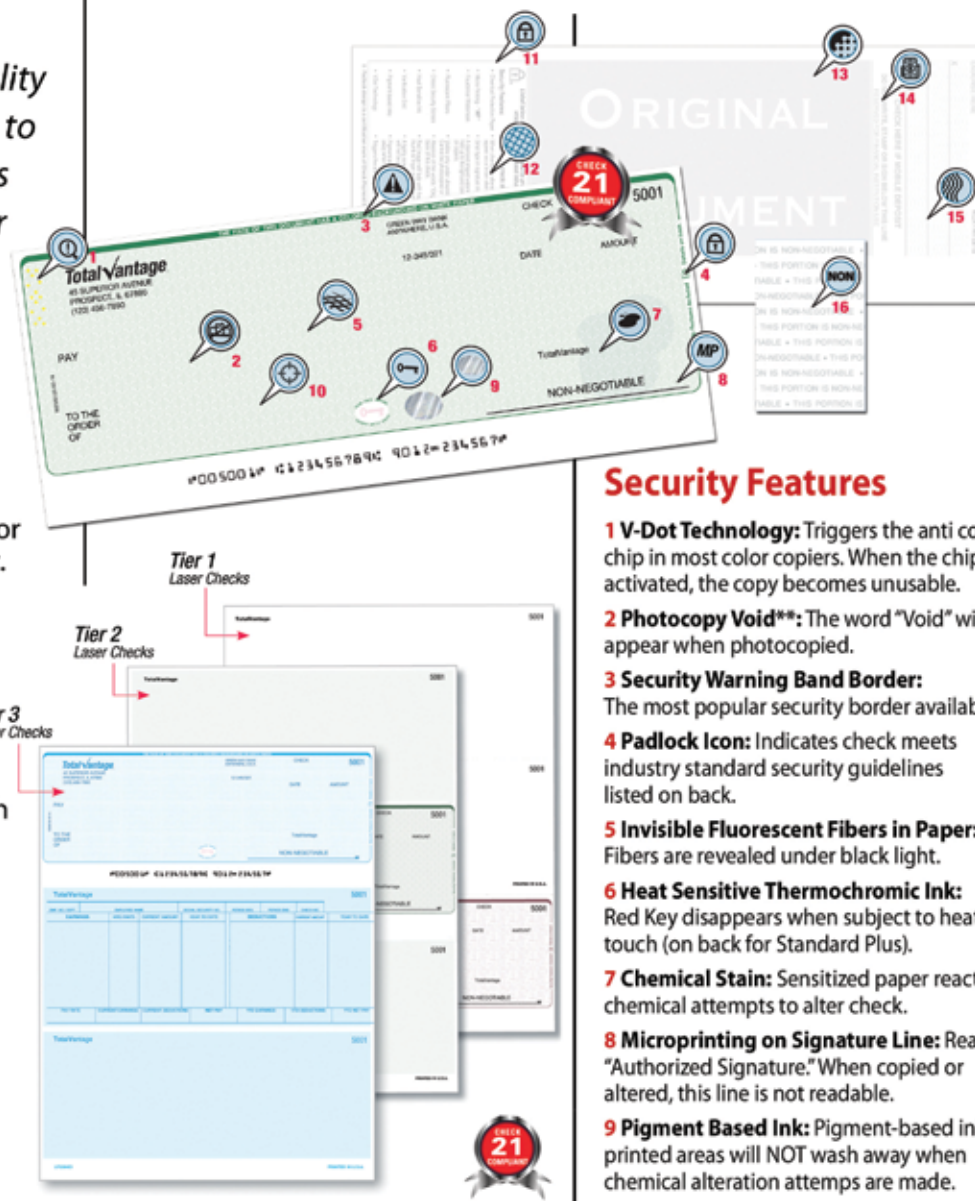

### Tier 2 Laser Checks:

Offering a minimum of 15 security features, along with new hologram security, multiple color and pantograph options and a variety of perforation positions.

### Tier 3 Laser Checks:

Offering a minimum of 16 security features, including True Watermark, plus over 50 pantographs and border options and 20 colors to choose from.

## Check System. Unmatched Security and Flexibility

## Security Features

- 1 V-Dot Technology:** Triggers the anti copy chip in most color copiers. When the chip is activated, the copy becomes unusable.
- 2 Photocopy Void\*\*:** The word "Void" will appear when photocopied.
- 3 Security Warning Band Border:** The most popular security border available.
- 4 Padlock Icon:** Indicates check meets industry standard security guidelines listed on back.
- 5 Invisible Fluorescent Fibers in Paper:** Fibers are revealed under black light.
- 6 Heat Sensitive Thermochromic Ink:** Red Key disappears when subject to heat or touch (on back for Standard Plus).
- 7 Chemical Stain:** Sensitized paper reacts to chemical attempts to alter check.
- 8 Microprinting on Signature Line:** Reads "Authorized Signature." When copied or altered, this line is not readable.
- 9 Pigment Based Ink:** Pigment-based ink printed areas will NOT wash away when chemical alteration attempts are made.

**10 Hologram\*\*\*:** Three dimensional metallic image fused on paper.

**11 Padlock icon on Back:** Lists additional visible and concealed security features.

**12 True Fourdrinier Watermark\*:** A diamond shaped watermark can be seen only when backlit and it cannot be altered or reproduced.

**13 Screened Check Back:** Deters duplication. Screen does not reproduce when copied.

**14 Mobile Check Backer:** Check box for deposit with mobile device.

**15 Digital Verification Grid:** The verification grid appears on the original and disappears when photocopied.

**16 Non-Negotiable Phrase:** Secures voucher from alteration.

\* True watermark available only on Tier 3 Laser Checks.

\*\* Photocopy Void, optional on Tier 3 Laser Checks, available with Scallop Void on Tier 2 and Stock Laser Checks.

\*\*\*Hologram available only on Tier2 and Stock Laser Checks with Scallop Void

### Substitute Check Stock

#### What is a Substitute Check?

- It is a specially formatted paper copy of the electronic image of an original check used by banks and considered a legally valid form of payment.
- It must have the front and back image and MICR information of original check.
- The base stock paper and other specifications (perforations, check size) must be within the industry standards for regular checks.
- Substitute checks are also known as Image Replacement Documents. (IRD)

### Stock Computer Paper

Stock Computer Paper is continuous, one color, stock computer paper. With different sizes and ply arrangements to choose from, this is a flexible office printing solution. The paper is designed to work with dot matrix printers. These products are ideally designed for high speed, large volume reporting jobs.
