Remove all doubt and your customer will never forget their medication or vitamins again with our newly patented Scratch-A-Dose chart. It's as easy as scratching off a lottery ticket, only with this they win every time!

The customer takes their daily pill and scratches off today on the calendar. Our patented design allows for the customer to simply scratch off the day with their fingernail or coin like a lottery ticket. A hole at the top allows for it to be hung on a wall, or peel off the month and apply it to the Rx/vitamin bottle.

Useful for:

- Prescription Medications
- Daily Vitamins
- Pet Medications
- Eye Drops

The bottom allows the customer to write a person/pets name and medication/vitamin to track daily doses.
