Tamper-Evident Plastic Coin Bags

A complete system for one-time coin deposits and transfers, **CoinLok®** tamper-evident bags are the safe, secure alternative to canvas coin bags. Strong, water-resistant **CoinLok** bags are designed to hold up to 50 lbs of coin.

- Eliminates lost tags, seals, crimpers, dirty canvas, health risks from lead seals and bag return/sorting expenses.
- Specially formulated film resists tampering and provides strength with low slip.
- Customizable to fit your exact requirements.
- Compatible with major coin counting, sorting and bagging equipment.

Easy-grip reinforced handle (optional second handle available)

Strong, low-slip film for safe, easy stacking

Clear film for easy content verification (white available)

Easy to read when stacked

Processor (armored courier receipt)

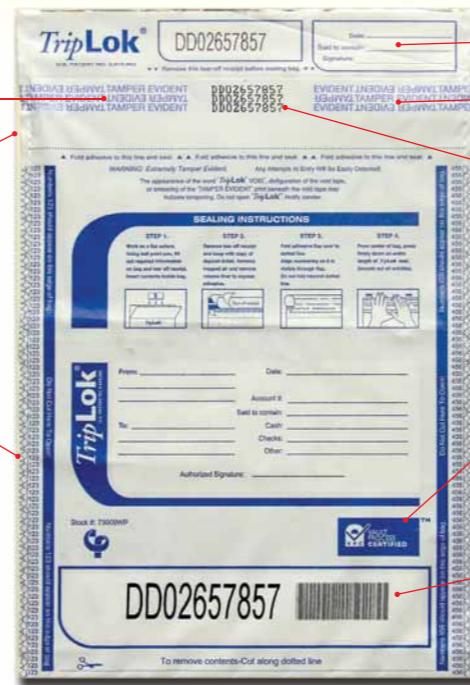

Customer (depositor) receipt sequential numbers

ABA color-coded label for easy auditing

Currency Security Bags

Designed to meet stringent Vault Process Certification (VPC) standards, **TripLok®** bags offer enhanced security and superior fraud deterrence. As a leading choice of major bank vault managers, **TripLok** bags dramatically improve cash management performance and lower costs in the vault, as well as in all currency handling applications.

- **Meets all new FED Cash security bag requirements and specifications.**
- Exclusive interior sealing system with pocket protects contents with triple layer of custom-blended adhesive.
- Thin, yet strong and highly durable film technology improves overall efficiency.
- Four easy-to-read barcodes with large 3/4" numbering allow easy scanning by security cameras.

Aqua detect ink

Anti-static release liner

Security micro-print along edges

Tear off receipt

VOID feature in security closure

Sequential numbers embedded in closure

Vault Process Certified

Large barcodes & number (1 on each side on larger bags)

Affordable Security Bags

InterLOK® is our newest, most affordable security bag. We've made these bags lighter, stronger, and at the same time, increased their tamper-detection features. Any attempt to penetrate the bag will leave a clear sign that cannot be camouflaged.

- More secure foldover, tamper evident closure.
- Protects against cold, heat, and solvent tampering.
- Indented security side welds makes it impossible to realign and restore the edges.
- Void-evident graphics are incorporated directly into the bag film – no weld or glue attached security tape.
- Closure appears distorted when soluble ink comes into contact with saliva, solvents, or other chemicals.

Thermochromic heat indicator strip

Edge seal graphics

Sequential number and barcode for easy tracking

Highly visible void graphics

Saliva indicator printing
