

A Classic, With Extra Security

Checks have been around a long time for a reason: they create a clear paper trail, they're easy to approve, and they still feel "official" for high-trust payments. In 2024, the Federal Reserve's check service processed approximately \$8.17 trillion in commercial checks.

A few notable facts when talking to customers:

- The concept of checks dates back to early commerce; the word "check" is often linked to the Arabic term "sakk," meaning a written promise to pay.
- In colonial America, one of the earliest recorded checks was written by New York merchant Nicholas Van Dam in 1681.
- The Check Clearing for the 21st Century Act in late 2004 modernized processing by allowing electronic check images.
- In 2008, a tangible \$9 billion check was written to help rescue a financial institution during the financial crisis.

How to position pressure seal checks right now:

- A familiar workflow customers already trust
- Fast, clean processing with pressure seal formats
- Stronger security options available on top sellers (now with holograms)

Enhanced document security: Holograms have been added to our top three stock pressure seal documents, giving customers another visible, built-in layer of protection.

New Digital Catalogs Are Here

Explore our new catalog, featuring an expanded selection of products, including checks, forms and more. You'll find easy-to-use tools that help you share product inspiration with customers. Use the links below to get started.

Don't Waste a Single Laser Check!

Some customers print checks all day long, and the small stuff can slow them down: alignment issues, paper slippage, wasted forms, and reprints.

That's why Wilmer's Laser Taxi® exists. It's a reusable forms carrier designed to keep documents stable, secure, and on track while printing.

Why customers like it

- Reusable up to 25 times (less waste, lower cost per run)
- Ideal for 3-on-a-page laser check printing (better alignment, fewer misprints)
- Handy for non-standard paper sizes (more flexibility across jobs)

PSM Equipment Sale

Even better than last year – higher ROI with exclusive PSMailers savings. This year's Exclusive Savings Event is extended through June 30, 2026.

- 15 – 20% off select PSMailers systems
- More room for margin
- More time to build recurring revenue through documents and refills

Faster Processing. Lower Cost. Increased Margin. Gold Medal Performance with PSMailers.

The Winter Olympics inspire athletes, fans, and anyone who values peak performance. That same excellence applies to your mail operation – with PSMailers delivering gold medal results where it matters most.

The PSM1800 is the speed skater of the lineup: compact, efficient, and fast. Processing up to 1,800 documents per hour with a 10,000 monthly duty cycle, it's ideal for smaller offices needing reliable performance and quick ROI.

Stepping up, the PSM3000 delivers desktop gold. With 3,000 documents per hour and a 25,000 monthly duty cycle, this integrated folder/sealer is perfect for organizations that need higher throughput without sacrificing space or simplicity.

For high-volume demands, the PSM10KPro takes the podium. Handling up to 10,000 documents per hour and 200,000 per month, it's built for speed, endurance, and nonstop productivity.

Before the 2026 Winter Olympics flame goes out, explore our top-tier pressure seal equipment at psmailers.com and upgrade to Olympic-level performance.

Enjoy 15-20% OFF select PSMailers Systems – our most competitive pricing to date – so you can offer customers exceptional value while protecting (and growing) your profit winning margins!

Your patriotic partner,
PSMailers Guy

Expand your product line with trusted Rx security solutions

Healthcare providers face constant pressure to protect patients, prevent fraud, and remain compliant – and prescription security is critical.

Wilmer provides tamper-resistant security paper backed by federal compliance and state approvals, giving you confidence to offer regulated print with dependable margin potential.

State approvals that matter

Wilmer is an approved security printer in CO, DE, FL, IN, KY, ME, WA, WV, VA, and WY. In other states, Standard Secure products exceed federal guidelines.

Products your customers rely on

- Standard Secure Prescription Pads
- State Regulated Rx Pads
- Laser Rx Paper
- Federal Regulated Pads
- Thermal Rolls

How to position it

- Regulation-ready, fraud-resistant formats
- Consistent quality for confident reorders
- A specialized category that strengthens healthcare accounts

We continue to offer prescription pads compliant with California and New Jersey requirements, ensuring uninterrupted availability for customers in both states.

Stay with us – Wilmer is thrilled to celebrate 100 incredible years in 2026!
